Subject: California state Republic de jure Office Election Results, 2026, for We the People – The ReInhabited c.2011

Donald J. Trump, CIC:

In the year of our Lord 1776, our Founding Fathers brought the Declaration of Independence to free our nation and people from the tyrannical rule of the British Crown. On January 20, 2017, you stood in front of all branches of our military including Military Intelligence and Judge Advocate General officers and told us this transition was from Washington DC and you were giving it back to “..you, the people”. On July 4, 2020, we watched you, with Melania standing by your side, sign the 2nd Declaration of Independence; congratulating the people of our great nation.

Congress and the states’ Legislatures illegitimately set aside our Constitutional Republic in 1871-1879, restructuring the government as a corporation through trusts, statutes, and contract law, without the People’s consent. Your acknowledgment matches with that of our former de jure President elect, James Timothy Turner, and his dedicated teams’ research, confirming the true history of our nation.

We the People of the California Republic, accepted your declaration and order for transition. We repopulated our California Republic by standing up twenty-seven counties, the original number of counties when the Republic of California entered the Union in 1850. We have now held Lawful elections to seat the constitutional county and state level offices of government. The fully transparent single-day voter-id verified de jure elections reinstated the California Republic, under the California Constitution of

1849, returning Civil Authority to We the People. We are ready to work with the Military to assist in this transition from the de facto to the de jure Republican governance.

Attached find a letter from our former President of the Republic for the united States of America, James Timothy Turner, dated May 3, 2012. Our California Republic was reestablished on February 19, 2011 (see attached). We the people, are holding the seats of our original Republic as interim placeholders, peacefully, lawfully, honorably and prayerfully in order to insure a Republican form of governance.

The repopulation of the California Republic county by county is publicly available to see on TruthSocial.com/@carepublic .

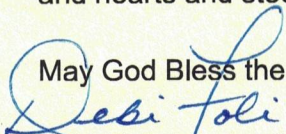

Also attached is the January 11, 2026, proclamation of election, the January 17, 2026, ratification of our 1849 California Constitution and the results of the election conducted by We the People of the California Republic on January 27, 2026. These videos and documents can be viewed on our Truth Social Public Notice channel as linked above.

Our last required step, to fully stand up our California Republic, according to our 1849 California Constitution, requires that we notify our military of the results of our election. Included in this package is our certified election report.

We now stand at the ready, sir, for military instruction, as we have followed the 17-step plan- to the best of our knowledge, that James Timothy Turner gave to General Dempsey at his request in 2008/2009. This man is an American hero, sir, and deserves not only a medal of freedom, but exoneration and full restitution for the suffrage which he has endured for our Republic and the freedom of We the People.

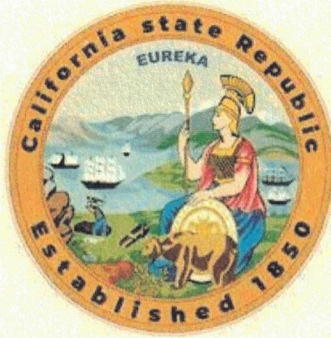

We thank you for your service which is freeing not only We the People of the California Republic, and We the People of America, but We the People around the world. We thank the military for their special operations as shown to us by Christopher Miller, Ezra Cohen Watnik and Space Force. We thank your family who has taken great abuse so we can be free and we thank all of the patriots who have opened their eyes and hearts and stood in the gap with We the People of the California Republic.

May God Bless the California Dream again and may God Bless America

Debi Foli, Interim Governor Elect

Republic for the United States of America

Subject: America

Chairman Dempsey:

In the year of our Lord 1776, our Founding Fathers brought forth the Declaration of Independence to free this country from the bonds of tyranny of the British Crown. This declaration is still revered today as one of the most powerful and influential documents ever written. The principles and concepts found in this document along with the *Constitution of the United States of America* and the *Bill of Rights* allowed our Forefathers to create one of the greatest nations on earth in a few generations. Our government operated within the confines of these trust agreements until it was changed by a constitutionally unlawful act of Congress on February 21st, 1871, the territory of the seat of government of the original *de jure* Republic, within the District of Columbia, was incorporated with the District of Columbia, forming a new municipal UNITED STATES Government Corporation operating upon the American People as a Democratic, executively administrated municipal corporate government. However, Congress did this without the knowledge and consent of *We the People*. The *Declaration of Independence* and *Constitution of the United States of America* together, make it very clear that Congress DOES NOT have the authority to change our form of governance or our law form without FULL DISCLOSURE and the CONSENT of the People. They simply did not have proper lawful consent of *We the People* to take these actions in 1871. Our system of law was changed to a *Legal* system that has slowly eroded away the very fabric of the American society by functioning as if our lawful Constitution is irrelevant. We are now a nation under the threat of

Socialism/Marxism. All of this was done without the CONSENT of *We the People*. In Washington D.C. there is a Congress and an unlawful President that has no regard for the law, and brought America to the brink of total financial and moral ruin. The total collapse of our society is inevitable unless we change things NOW. We believe most of these unlawful representatives are committing treasonous acts against the American People daily.

I am writing this letter to the Joint Chiefs in an effort to help save America and future generations of the American People. What is going on in Washington is not by the will of, or by the consent of the People.

On March 30, 2010, a group of a few thousand men and women representing the will of the nation stood up in lawful assembly and said, "Enough is enough"¹. A declaration was sent to the governors of all fifty States ordering that they return to following the Supreme Law of the Land, which is the *Constitution of the United States of America* and the *Bill of Rights*. This was an attempt to stop all unlawful acts being forced upon *We the People* against our will and consent. You may say that only a few thousand people stood up in March of 2010, but only 56 of our Founding Fathers began the movement in 1776. Our declaration was ignored and we sent another notice July 20, 2010, which was also ignored.

By ignoring our Declaration and notice, the elected officials of the UNITED STATES municipal corporation have placed the UNITED STATES corporate government into a serious constitutional breach of contract of their fiduciary duties and the Oaths of Office, which they are sworn to uphold. Anytime that a lawful remedy for a breach of duty is requested and that request is ignored, a default in law occurs. The party requesting the remedy now has the right to choose and bring forth their lawful remedy because of the default of the opposing party. The remedy that we chose was to *peacefully* re-inhabit the original organic *Republic of the United States of America*. This has been lawfully completed and is fully documented. It is our intent to work hand in hand with those who understand the problem and want to correct it

I believe there are many within the US corporate government who would work with us at this time, given the safe opportunity. As President of the Republic, it is my intent to offer the military leaders all of the lawful authority needed to perform the duties that are necessary to bring about this re-integration. I need information from you to make that happen. We have a documented lawful Republican form of government structure and are the only lawful Civil Authority in this nation. *We the People* have a higher authority than the UNITED STATES municipal corporation in law and in fact. We do not have the ability to enforce that authority; therefore we are calling upon you for that enforcement. I, by the consent of *We the People*, offer this authority to our military leaders to help us accomplish this task.

¹ *The unanimous Declaration of the Sovereign People of the united States of America to restore and reinhabit the free American republics*

On September 23, 2010, *We the People* cast a lawful vote by the delegates from a lawful quorum of 42 free states, to reinstate the Executive, Legislative, and Judicial Powers of the reinstated Republic. Pursuant to the Constitution, the one Supreme Court was reinstated and Supreme Court Justices were sworn into office. Again, this was accomplished by the consent and votes of *We the People*. This action is lawfully supported by the *Declaration of Independence* of 1776. Our lawful Republic is in place and in full compliance and moving forward. I was elected as the lawful president by a 94% majority vote of *We the People* of this re-inhabited Republic of the United States of America. I am a lawful American by birth and legally qualified to be the lawful President, in the interim, until *We the People* are able to hold lawful national elections as established by our constitution. We have prepared a detailed 17-step plan that can re-integrate the lawful Republic government into our society without disruptions, unrest, or civil war. Our plan allows us to make a peaceful transition that will restore the United States of America to its proper place among the nations of the world.

I hereby formally request that the Joint Chiefs and the Military of this nation stand with us to recognize and re-integrate the Republic of the United States of America as the lawful government in and for America. I, as President, under the direction and authority of *We the People*, who are the lawful Civil Authority, do hereby request the United States Military Joint Chiefs of Staff to lawfully act upon on behalf of the People of the lawful Republic for the United States of America. We wish to meet discretely with a few select Republic officials and talk in a manner that is safe and secure for all parties involved. This letter has not been revealed to any other source.

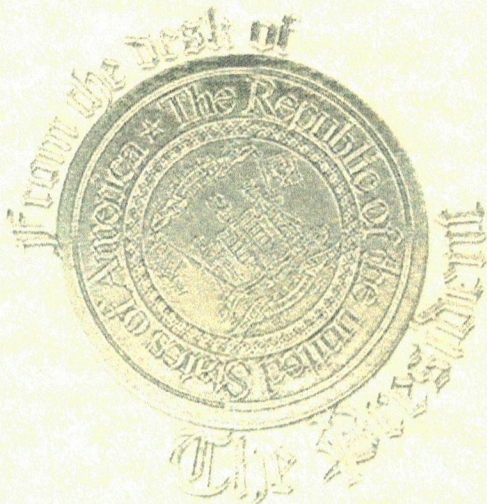

For decades, the officers of the UNITED STATES CORPORATION who have unnecessarily put our soldiers in harm's way have held the military in low esteem. The intent of the Republic is to return the control of the military back to the military leaders. Politicians should not be making decisions for the military. We are committed to restore the status of the military to its rightful place. In times of national emergency, we want it to be our military leaders who create and implement the strategies to successfully return our nation to peaceful conditions.

We are a peaceful people who do not wish any conflict, but without your support we understand what the consequences could be. We do not believe that the American military men and women of this country are pleased with what is happening in Washington any more than *We the People* are. We also believe that given an alternative to the current *de facto* corporate regime, the military would choose to do what is right for America. We are now giving you that lawful choice.

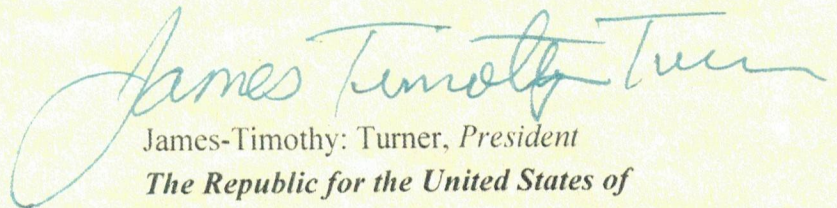

We the People are of the opinion that financial collapse of our beloved nation is eminent according to many financial sources from around the world. We have a plan and the resources that will bring peace, stabilize the economy, and restore America to its rightful place as the greatest nation on earth. We believe the collapse was planned with the intent to bring America down to her knees and destroy it from within.

We are appealing to your Patriotism and love for America to help us stop the usurpations of freedoms of *We the People*. I will stand for America no matter what the consequences may be. I love my country and the American people. I would gladly sacrifice all with no regrets but would rather live in peace and prosperity and enjoy it. I, together with most of the people of America, will gladly support and applaud your actions to remove any foreign or domestic terrorist threat as you see fit. This is a necessary action in order to re-establish and protect a lawful Republican form of government, which is truly of, by, and for the people of the free Republic for the United States of America.

We are a peaceful people who abide by the laws of our creator, namely to love God and love our fellow man. We wish no harm upon any man, but *We the People* of the Republic will stand with our great military to protect our nation. Our prayer is that you as the brave and honorable men and women of the military of the United States of America will come forth and deliver your beloved nation from this tyranny from within our borders. May God the Creator guide you in your decision to defend and protect America and her People. Peace to you all, and God Bless America.

Respectfully,

PROCLAMATION OF ELECTION

By We the People of the California State Republic, Established 1850

Part I — Proclamation of Intent

We, the people of the California State Republic, affirm that the original **California Constitution of 1849** was ratified at an election on November 13, 1849, prior to statehood in 1850.

We further note that a second constitution was drafted and adopted in 1879 following a constitutional convention, replacing the 1849 Constitution with a new governing charter narrowly approved by the voters.

We hold that the succession of constitutional amendments and government actions since 1879 has departed from the principles we believe were embodied in the California Constitution of 1849, particularly regarding republican governance with checks and balances. This has resulted in a state plagued with corruption, fraudulent elections, financial waste, illegal immigration and more.

Accordingly, we declare our intent to restore the foundational structure of a republican government reflected in the California Constitution of 1849. Under this proclamation, we assert that all amendments and later constitutions that followed the California Constitution of 1849 are nullified. We will hold a lawful general election on January 27, 2026, through voluntary, county-based assemblies we refer to as *jural societies*. The interim officers elected in this election will occupy the seats of the original California Republic under the California Constitution of 1849, and remain subject to future elections and ratification by the people of California Republic.

This election shall proceed in alignment with these foundational documents:

- Constitution for the United States of America (1787)
- Bill of Rights (1791)
- Declaration of Independence (1776)
- Proclamation of Claim and Interest of the Republic for the United States of America, Ozark, Alabama, April 30, 2012
- The Holy Bible
- California Constitution of 1849

Part II — 2026 General Election for Interim California Republic Governance

We the People of California have stood up 27 counties for the California Republic which is the number of counties established when the California Constitution of 1849 was ratified. These counties comprise approximately 85.2% of California's current population. We the people shall conduct a general election on January 27, 2026 to select interim officeholders to serve under the principles outlined in this proclamation. The prepared ballots will be distributed to members of the jural societies, including current interim placeholders, with completed ballots due on **January 27, 2026**.

This Election Notice to the People will be emailed to and posted in county-based jural societies two weeks in advance of the election. After the election, each county's jural society will report its results to the interim Secretary of State and in each county's jural society subgroup on our business forum = telegram. Results shall be publicly reported within two weeks after the election on the designated Public Notice channel, **TruthSocial.com/@carepublic**.

State Offices to Be Elected:

1. **Executive - Governor**

Following the election, the Governor shall appoint:

- Secretary of State
- Treasurer/Comptroller
- Attorney General

2. **Legislature**

- House of Representatives
- Two Senators

3. **Judicial**

- Chief Justice and Associate Justices

County Offices to Be Elected:

- County Commissioners
- County Clerk
- County Justice
- County Court Clerk
- County Sheriff
- County Delegates

Part III — Future Constitutional Convention

We the People recognize that the California Constitution of 1849 did not address certain later-arising civil rights developments, including universal suffrage regardless of race or gender. Such matters, and other necessary reforms, shall be addressed in a future Constitutional Convention convened in accordance with the constitutional processes set forth in the California Constitution of 1849.

Ceremonial Ratification of the 1849 Constitution of California

Adopted at Monterey, October 13, 1849

An Act of the People

We, the People of California, having peaceably resettled and restored our sovereign California Republic with the blessing of our creator and by His word, the Holy Bible, do hereby solemnly ratify the 1849 California Constitution, and in so doing, we knowingly and intentionally affix our names and signatures to the same with the full force, effect, and intent as though we were original signers thereof, in the same spirit and resolve as our forefathers who pledged their lives, their fortunes, and their sacred honor to secure the blessings of liberty for themselves and their posterity.

Done this seventeenth day of January, in the year of our Lord two thousand twenty six.
